

# 6 Ways Small Businesses Waste Time (and How to Get Your Life Back)

Small business owners work hard. Overtime is the norm: 8 in 10 entrepreneurs work nights, while 89% work weekends. But running your company shouldn't require working every waking hour. Reduce the time you spend on these tasks, and get more minutes back for yourself.

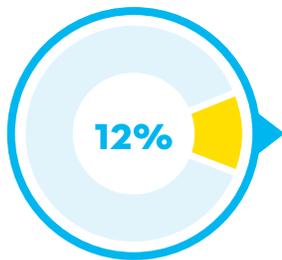

Almost a **third** of small businesses spend **6+ hours a month** on payroll.

Starting in March, the Clover HR Bundle will combine **Gusto Payroll Integration** and **Homebase** so merchants can streamline payroll, benefits, and HR.

**43%** of small businesses track inventory manually – or don't track it at all.

Gain real-time inventory insights with the **Sales and Inventory by Wolong** app. For more advanced needs, **Inventory Management by Orca Inventory** can automate inventory and ordering for you.

**12%** of small businesses owners say **accounting is their most productive area of operations.** (The rest of us struggle with it.)

Divvy up cash between registers, track ins and outs in real-time, and reconcile cash drawers at shift's end with **Cash Track**.

**1 in 5** small business owners devote **11+ hours** to social media each week.

**Clover Online Listings** helps you keep up with customer feedback on more than 20 review sites, including TripAdvisor and Yelp. **Social Media Marketing with BeSocial** streamlines your updates across channels.

Restaurant owners spend almost **3 hours weekly** on employee schedules.

**Time Clock by Homebase** turbo-charges your scheduling, managing employee shifts, time-off requests, trades, time cards, clock ins/ clock outs - all online.

The **#1 time waster** for small business owners is **email**.

Reduce back-and-forth with suppliers. Enter **SimpleOrder**, an inventory and purchasing platform for restaurant stock replenishment.

Run your business better with the Clover App Market.

Visit [clover.com/appmarket](https://clover.com/appmarket) to browse apps that can extend your Clover and help you perform critical tasks.
